1.7 million people are directly involved in designing, constructing, operating, and governing US water infrastructure. #InvestinH2O #WaterWeek2023

**Strengthening the water sector's federal partnership is essential to ensuring communities can provide critical drinking water, wastewater, stormwater, and water recycling services without over-burdening ratepayers. #affordableH2O #WaterWeek2023**

85 percent of Americans support increasing federal investment to rebuild our water infrastructure. #WaterWeek2023

**The lowest 20 percent of earners pay up to 19 percent of their monthly household income on water and sanitation services. A federal assistance program for low-income water customers could help address this unsustainable burden. #wateraffordability #affordableH2O #WaterWeek2023**

Improperly flushed wipes result in an estimated \$441 million a year in additional operating costs at US clean water utilities! Labeling and flushability standards can solve the problem. #flush3ps #WaterWeek2023

**The nation's aggregate economic activity supported by water investments exceeds the GDP of 26 states! #WaterWeek2023**

The number of jobs supported annually by funding the water infrastructure gap is greater than the employed workforce in sixteen states. #WaterWeek2023

**At a national level, a one-day disruption in water service represents an aggregate daily loss of \$43.5 billion in sales and \$22.5 billion in GDP. #WaterWeek2023**

The US water workforce supports 1.7 million jobs across 212 different occupations #WaterWeek2023

**Climate issues ARE water issues. Resilient communities require affordable, sustainable water services for all. #WaterWeek2023**

As we work to address PFAS, water customers should not bear the burden #polluterpays #sourcecontrol #WaterWeek2023

**During the pandemic, Congress provided first-ever funding – \$1.14 billion – to help low-income customers struggling to afford the rising costs of water! The need for affordable water persists – Congress should support this being a permanent, reliable program. #affordableH2O #WaterWeek2023**
